

hi! i'm dennis.

if you're reading this

then you must be hard to impress.

aaand i love it! let me walk you through my career history. get comfy, this might take a while.

2026_vavasoftware

digital.designer

i produce high quality gaming and sports designs for g2gbet, a korean gaming platform. deliverables include, but not limited to, social media banners, gif banner animations, sports matchup posters, video editing, and match schedule tracking

tools and applications:      

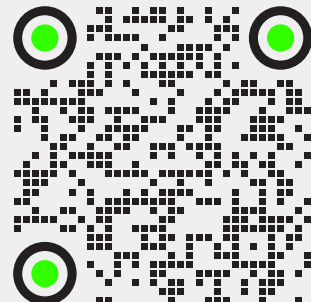

2019./2025_creative.lead

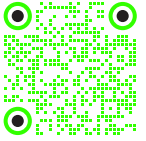

joined as a web designer in 2019, i lead local marketing creative team in delivering branding design, responsive websites, landing pages, and social media banners for thai, indian, and japanese markets of lucky niki, winningkings and playajo gaming platforms. i provided end-to-end support by determining project scope, art conceptualization, project timeline, creation of initial drafts, client review, final art creation, implementation and feedback for both design and development.

coverage:

banners, web design, quality testing, marketing collaterals, project management

tools and applications:      

2023./2025_freelance.designer

assisted in-house creatives of amn healthcare, a texas-based healthcare manpower service company, in creating and re-designing recruitment, webinar, conventions, and holiday banners for website and social media

coverage:

asset creation, graphic banners, infographic design

tools and applications:     

2016./2019_senior.graphic.artist

joined as a graphic artist for new oriental club88 in january 2016, my tasks revolved around leading major design requests. these included a variety of marketing materials for sales, development, and hr teams. my position also covered pre-approval review of my teammates' output and final art creation

coverage:

ui design, quality control, asset creation, pdf magazines, game manuals, banners, marketing collaterals, photography

tools and applications:   

2013./2015_graphic.artist

assisted in producing digital and print collaterals for fastcash, a startup payment system similar to cliqq of 7-eleven. my role included system design editing and designing of print materials. as the company shifted its focus, so did my tasks. i was introduced to online poker, lottery, and golf ball brands and was assigned to spearhead their branding accordingly, focusing primarily on gamesite and social media graphics.

coverage:

web design, asset creation, graphic banners, collaterals, video editing, photography

tools and applications:    

trivia #1 did you know that i created viber and whatsapp accounts—just for you **+63 915 631 8671**

having a yahoo mail in 2026 is diabolical, i knooow! but that only means i'm time-tested, not old! **dencioespinoso@yahoo.com**
